## Projects

### Responsive Web Design

[Link](#) [↗](#) [</>](#) [📄](#)

- Enhance user experience by implementing responsive design principles. Increase mobile accessibility.
- Implemented responsive design using CSS media queries and flexible grids.
- Improve website performance and reduce page load times.

Skills Developed: HTML, CSS, Responsive Design

## Position of Responsibility

### Seminar Speaker, CS Department, F.M. Autonomous College, Balasore, Odisha, 3rd year

[Link](#)

- In my role as a Seminar Speaker at F.M. Autonomous College, Balasore, Odisha, CS Department, I delivered a comprehensive presentation titled 'Mastering Web Development: A Journey through VS Code, Responsive Design, and Deployment.' This opportunity allowed me to showcase my expertise in web development to fellow students and faculty. I was responsible for developing the seminar content, ensuring its relevance to the audience, and delivering an engaging session.
- During the seminar, I successfully shared valuable insights into web development tools, focusing on the effective use of VS Code, principles of responsive design, and strategies for deployment. The positive reception and active participation from the audience indicated the impact of the session. This experience not only strengthened my communication and presentation skills but also contributed to the knowledge sharing culture within the college community. As a 3rd-year student, I am excited about the potential for more such opportunities to bridge theory and practice for my peers in the future.

## Achievements/ Extracurricular Activities

- Qualified in the National Means-Cum-Merit Scholarship (NMMS) Examination for the academic year 2016-17.
- Received an award in the inter-school annual sports competition.
